JESSAMINE COTTAGE, EYPE, BRIDPORT

This semi-detached thatched cottage in Eype was originally decorated by the owner in KEIM Granital 20 years ago. The front elevation was then redecorated with a single coat 10 years later to give a refresh.

The owner, John Hall, contacted KEIM for a further refresh in 2020. Julian Cullum, Senior Sales Executive of KEIM Mineral Paints, visited Jessamine Cottage and recommended using the KEIM Royalan system due to proximity to the sea.

John is very happy with the service provided by KEIM and how well the paint has performed over the years. He has even recommended KEIM to his neighbours and friends. John commented "I am extremely pleased with the final result...I do thank you very much for all the help and advice that you gave me."

This is a fantastic example of the longevity of KEIM Paints. To ensure a maximum long-life finish, we would recommend washing down surfaces periodically with a mild diluted detergent.

WHAT ARE KEIM ROYALAN® & KEIM GRANITAL®?

[KEIM Royalan®](#) is a mineral silicate based paint system which has been developed to withstand harsh climate conditions.

Key features & benefits:

- Breathable
- Extreme long life/durable
- Increases light reflectivity
- UV stable
- Advanced weathering protection
- Highly resistant to fungal & algae growth
- Resistance to airborne pollutants & acid rain
- Can be applied onto glass, ceramics and tiles

[KEIM Royalan® Dilution](#) is the liquid potassium silicate dilution for KEIM Royalan®.

[KEIM Granital®](#) is a classic mineral silicate based paint system for use on all forms of mineral surfaces.

Key features & benefits:

- Environmentally friendly, ISO14001
- Breathable
- Extreme long life/durable
- Increases light reflectivity
- UV stable
- Low VOC
- Inherently incombustible
- Resistant to fungal & algae growth
- [Natureplus](#) Certification

[KEIM Granital® Dilution \(Spezial-Fixativ\)](#) is the liquid potassium silicate dilution for KEIM Granital®.
