

## TECHNICAL DATA SHEET

# KEIM ABDICHTPROFIL

## 1. PRODUCT DESCRIPTION

---

Sealing profile made of TPE.

## 2. FIELD OF APPLICATION

---

The rear screw-on edge of the window sill is perfectly sealed by attaching the sealing profile against the window or the window sill connection profile.

## 3. PRODUCT PROPERTIES

---

- easy to use
- resistant to aging

### MATERIAL CHARACTERISTICS:

- Imperviousness to driving rain: min. 600 Pa
- length: 150 m
- Colour shade: black

## 4. APPLICATION INSTRUCTIONS

---

### APPLICATION:

Before mounting the window sill, push the sealing profile firmly onto the screw-on bar, making sure that the sealing profile is not pulled but rather compressed. The sealing profile must be pressed against the seals of the end caps or the clinker end caps.

## 5. DELIVERY FORM

### 7. DISPOSAL

---

**EC WASTE CODE:**

Waste code: 17 04 02

### 8. SAFETY INSTRUCTIONS

---

No particular indications.

### 9. GENERAL INFORMATION

---

The stated values and properties are the result of extensive development work and practical experience. Our recommendations for application, whether given verbally or in writing, are intended to provide assistance in the selection of our products and do not establish a contractual relationship. In particular, they do not release the purchaser and processor from the obligation to convince themselves of the suitability of our products for the intended application with due care, which is general practice in trade and crafts. The general rules of construction technology must be observed. We reserve the right to make modifications to improve the product or its application. This edition supersedes all earlier editions.
