

KEIM SOLDALIT-ME

HIGH PERFORMANCE EXTERIOR SOL SILICATE
MINERAL PAINT

KEIM MINERAL PAINTS – THE MINERAL DIFFERENCE

KEIM Soldalit-ME, is a variant of the KEIM Soldalit system and continues Keim's tradition of innovation in mineral paints and is a highly developed multi - purpose exterior silicate paint system based on a combination of silica sol and potassium silicate binding agents.

DUAL SURFACE ADHESION & SIMPLE APPLICATION

When applied to a bare mineral surface KEIM Soldalit-ME penetrates the surfaces to form a permanent chemical bond; and onto existing conventional, film forming coatings it forms a mechanical bond; an ideal mechanism combining two different methods of adhesion.

KEIM Soldalit-ME offers the undisputed advantages of a classic mineral paint with simplicity of application. Previously painted and mineral substrates can be painted directly, simply and reliably using the KEIM Soldalit-ME system.

DEVELOPMENTS IN KEIM TECHNOLOGY

KEIM Mineral Paints form a permanent bond with a mineral substrate, to create a highly resistant and durable coating, offering the benefits of extremely long service life, breathability, water repellence and environmental sustainability. KEIM Soldalit-ME creates a lightfast and UV resistant coating which is extremely durable, resistant to weathering and non-flammable. Perfected by extensive research and development, backed up by many years of practical use on a variety of different buildings, KEIM Soldalit-ME is a modern, innovative mineral paint.

ACTIVE MOULD & FUNGAL RESISTANCE

In addition to improving air quality KEIM Soldalit-ME offers high levels of algae and fungal resistance and actively kills spores and surface contaminants. The paint system contains a catalyst which, when activated by light, degrades surface contaminants. This process is ideal for urban environments where traffic and pollution levels are high, but is increasingly beneficial for any properties or areas which suffer from prolific algae growth and fungal attack as the catalyst will continue to work for the life of the coating.

For information about KEIM Soldalit-ME, colour swatches, samples of application advice please contact info@keimpaints.co.uk or call 01952 231250.
